AURALIS ELEVATORS

CONTROL PANEL

Energy efficient and simple to use our panels put you in control over your elevator systems.

ARD Automatic Rescue Device

It's extremely useful for preventing passengers from becoming trapped inside an elevator during a power failure

VVVF Controllers :

The variable Voltage Variable Frequency (VVVF) control ensures **50% Energy Savings**. It also creates a super comfortable ride quality with jerk free starts and stops. Smooth acceleration and deceleration and no landing variations. In the long run, this prevents wear and tear of components which means less downtime and huge saving on spares.

Usha Martin is a leading global manufacturer of wire ropes. Established in the year 1960. Their Global R&D center located in Italy is actively engaged in designing wire ropes and uses proprietary design software to develop products that are the best in class. Usha Martin also has a comprehensive R&D facility in their manufacturing unit at Ranchi in India.
